

How Do I Apply for the Facade Improvement Grant?

To apply for the Facade Improvement Grant, simply complete an application form and return it along with a drawing or rendering of the proposed facade improvement project and any other information as required by the application. Applications must also include contractor's cost estimates. Projects will then be reviewed and once a project has been awarded the Facade Grant, and proper permitting has been acquired, construction may begin.

When Will I Receive Grant Monies?

Grant proceeds will be dispersed upon completion of the project, submittal of an itemized statement of costs, and a final inspection and approval by the City's Building Department.
